

TH80

BALUSTRADING SOCKET

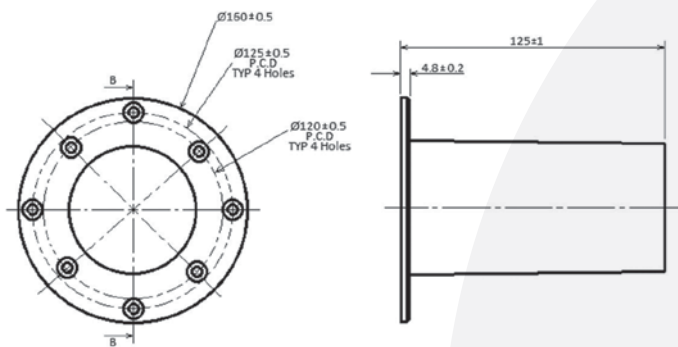

- ✓ ELIMINATE BALCONY LEAKS AND WATERPROOFING FAILURES
- ✓ NO MORE ROTTING STRUCTURES AND SOFFITS
- ✓ ELIMINATE PENETRATIONS ON BALUSTRADING INSTALL
- ✓ LIGHTWEIGHT CONSTRUCTION COMPATIBLE
- ✓ AUSTRALIAN MANUFACTURED AND OWNED

WHAT IS THE TH80?

TH80 is designed for the installation of balustrading posts and spigots to prevent waterproofing failure on balconies.

TH80 is a cost-effective solution to long-term waterproofing issues and costly repairs.

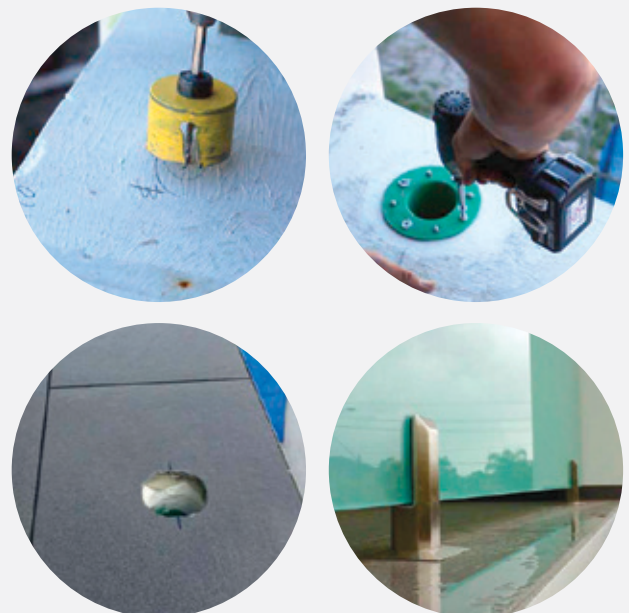

TH80 has no long-term failures due to screwing through membranes as previous outdated systems require.

TH80 has structural properties that will not fail due to moisture transfer and structural movement.
